Critical Factors - Summary

Factor	Status	Approved
Status of Company:	Normal	
RiskWatch Alerts:	None	

Accounts Up to Date:	Out of date (last update on 30/06/2019)	
Judgments:	No Results Found.	

Analyst Observation

- This report is based on the very latest accounts filed by this company for the financial year end 30/06/2019.
- This company is now beyond the grace period for filing their Annual Return.
- The accounts are more than 4 years old.
- There is a statistical correlation between late filing of accounts and business failure.
- Companies with a higher proportion of equity invested in Fixed Assets offer less protection for creditors in the event of insolvency.
- Companies that are reliant on the rapid turnover of inventory or short term loans are proportionately more likely to fail in the current environment.
- Companies that are more highly leveraged tend to represent a greater risk for unsecured creditors.
- Companies with a low or negative net worth tend to be more reliant on financing from creditors and are statistically more likely to fail in the current environment.
